REPORT OF THE COMMITTEE OF VISITORS

OF THE

County Lunatic Asylum at Prestmich,

TO THE

Adjourned Annual Session Held December 27th, 1860.

The County Lunatic Asylum Prestwich,

27th December, 1860.

Agreeably to the provisions of the Act 16 & 17 Vict., cap. 97, the Committee of Visitors of the County Lunatic Asylum at Prestwich, present their report for the past year to the Court of General Annual Session.

The buildings are in a satisfactory condition. They have been kept in repair, painted and whitewashed by the attendants and patients, under the direction of the Superintendent. Water has been introduced into the Asylum from the Bury and Radcliffe Water-works, which will materially contribute to the comfort of the inmates, and afford an effectual protection in case of fire.

The grounds continue to improve in order and appearance, and additional walks are in the course of being formed for the recreation of the patients.

During the past year 90 males and 89 females have been admitted; 84 males and 87 females have been discharged, (33 males and 48 females being cured or improved,) and 41 males and 25 females have died.

The Asylum is capable of accommodating 510 patients—and on this day there are 499 on the books of the Establishment, all of whom are in their usual state of general good health.

The uniform weekly charge of 7s. 7d. for the maintenance of patients belonging to Unions or Townships within the County, has been preserved during the year.

No change has taken place amongst the superior officers of the Asylum, who have discharged their respective duties to the entire satisfaction of the Visitors.

A Special Committee having been appointed by the Court of Annual General Session for the purpose of considering the best and most economical mode of providing such additional accommodation for pauper Lunatics as will be sufficient to meet the general requirements of the County, it is only necessary for this Committee to state, that,—notwithstanding they have made every exertion to

relieve the Asylum of all such patients as in their opinion could with propriety be transferred into the Workhouses of the various Unions—they have been compelled during the past year, from want of accommodation, to refuse a considerable number of applications for admission, and that they have experienced the greatest difficulty in retaining room for those cases which depend on immediate care and attention for their hopes of ultimate recovery.

THOS. S. MILLS,

Chairman of the Committee.

REPORT OF SUPERINTENDENT.

County of Lancaster Asylum,

Prestwich, February 15th, 1861.

Gentlemen,

I have honour to submit the following Report:

On the 1st of January, 1860, there remained in the Asylum 502 patients, viz.:—244 men and 258 women. The number admitted during the year amounted to 181, (89 men and 92 women,) making a total of 683 under care and treatment during that period. Of these

80 have been discharged, recovered;

5 ditto relieved;

31 ditto not improved; and

67 have died;

leaving 500 in the establishment on the 1st of January 1861.

The recoveries (44 per cent. on the admissions) have been rather less than usual, the average of the previous six years having been 51 per cent. The rate of mortality, on the contrary, has been higher, 9.8 being the percentage on the numbers under treatment.

The general health of the patients has been good throughout the year. With regard to the management and treatment of the patients nothing more need be said than that the same system which was adopted at the opening of the Institution, and which has been so often commented upon, has been steadily pursued. In addition to the customary amusements we have had two excellent vocal concerts, for which we have been indebted to the kindness of Mr. John Wike, of Bury.

A painful circumstance happened last spring, which caused at the time great consternation throughout the Asylum. One of the oldest attendants, John Tetlow, (remarkable for his habitual kindness to those under his charge) was stabbed most severely in the mouth, by one of the patients. The wounds, which were extremely dangerous in character, were inflicted by means of a dinner knife. The knife passed through the cheek and deeply penetrated the root of the tongue, causing a fearful homorrhage. The bleeding which lasted for upwards of four hours, nearly proved fatal; indeed for an hour or two before its cessation little or no hope was entertained of the poor man surviving. Happily however, he did recover and, to his credit be it said, he remains an attendant still.

As regards the patient it should be stated that the attack, so far as can be ascertained, was not made with any homicidal intent. It appears that he was irritated, during dinner time, by another patient purloining his bread, and struck at him, in consequence, with his knife. Two of the attendants went to the rescue and Tetlow received his injuries in the struggle. I have alluded to this sad affair, which, through a local newspaper, obtained some publicity at the time, in order to give a correct version of the occurrence and to show that, although neither myself nor, I believe, any other person in charge would desire to curtail the liberties and comforts of the patients, the present humane mode of treating the insane does, occasionally, subject the attendants to serious assaults.

Again I have to record an act of suicide, but at the same time I can truly affirm that it arose from no negligence on the part of the attendants. The patient who destroyed himself had been an inmate of the Asylum for more than four years, during which time he constantly and cunningly endeavoured to commit suicide, and to the extreme vigilance of the attendants must be attributed his frequent failures. At last he unfortunately succeeded in effecting his purpose by suspending himself to the main gas pipe, which passes through the cellar underneath the ward in which at that time he was living.

With these exceptions I am enabled to say that the year has passed over without any accident of moment to cause us uneasiness; and when the amount of liberty generally enjoyed by the

patients is taken into consideration, I do think we have every reason to congratulate ourselves upon our freedom from many such misfortunes.

The new dining-room on the women's side of the establishment, the erection of which you sanctioned some time since, has proved a great convenience to the two wards for the use of which it was designed, adding thereby to each ward an extra sitting-room, and relieving the inmates of much annoyance and trouble. About 150 take their daily meals in the room, but it is large enough to hold 20 or 30 more. The comforts of the patients have also been increased in other ways, especially by the construction of eight new water-closets and by the addition of several washing-rooms.

Should you carry out the projected additions to the Asylum now under your consideration—part of which scheme is the conversion of the present wash-house and laundry into a large dining hall, &c., and the erection of a larger and more commodious laundry elsewhere,—I believe a considerable improvement would be effected in the arrangements of the Institution, and give, what is now so much required, a great increase to the accommodation for pauper Lunatics.

The following is a copy of the report left by the Commissioners in Lunacy at their last visit:

"Prestwich County Asylum,
"16th November, 1860.

"There are this day 502 patients in the Asylum, of whom 240 are men, and 262 are women. Three of the women, however, have

recently been absent on trial, and they were discharged at a meeting of the Visitors held this day. The changes since our last visit in October, 1859, have been as follows, viz:—

"Admitted
$$\begin{cases} 90 \text{ Males} \\ 97 \text{ Females} \end{cases}$$
.....187"Discharged $\begin{cases} 48 \text{ Males} \\ 62 \text{ Females} \end{cases}$110"Removed3 Males"Died $\begin{cases} 47 \text{ Males} \\ 25 \text{ Females} \end{cases}$72

"Amongst the recorded causes of death we notice that 26 patients died from general paralysis, 12 from epilepsy, and 11 from pulmonary consumption.

"One patient committed suicide by hanging. The particulars of this case have already been communicated to our Board.

"The general health of the inmates is good, although there is a large proportion of the patients suffering from general paralysis. Only six—three of each sex—were in bed at the time of our visit.

"We found the patients generally quiet. One of the paralytic patients wore gloves to prevent him from rubbing a sore on his leg, but no patient was mechanically restrained.

"One patient of each sex was in seclusion.

"There is no record of any instance of restraint since our last visit, but seclusion for various periods appears to have been resorted to in cases of excitement.

"The regulations relative to the occupations and amusements of the patients remain the same, and a large number of both sexes are regularly and usefully employed. Prayers are read daily in the work-room, and the full service of the church is performed twice on Sunday. A large number of patients attend. Personally the patients were clean and the clothing good, but we should be very glad to see a greater variety of material introduced for the dresses of both sexes.

"The wards and beds were in good condition and generally in a satisfactory state. We recommend, however, that the mattrasses should be examined, and that those which are insufficiently filled should be re-stuffed.

"We recommend also the introduction of blinds in the dormitories, and also seats.

"As regards the accommodation for washing, to which allusion was made at our last visit, we find that additional basons have been put in lavatories to the extent of one bason to about five patients, but no washstands have been introduced in the domitories.

"Dinner was served to the patients in our presence. We observed that the food, consisting of beef and cabbage, with bread and cheese, and beer, was very good and abundant.

"The women, to the amount of about 150, now dine together in a dining hall, which has recently been constructed in a great measure by the labour of the patients.

"The Asylum is quite full; indeed some of the bed-rooms are rather crowded, and we have ascertained that 72 patients have been refused admission since our last visit, and this number does not represent all those for whom accommodation has been required, because, from a knowledge that the Asylum was full, in many cases no application has been made by the Parish Authorities.

"Accommodation for about 40 additional patients will shortly be obtained in the house at present occupied by the Chaplain, who is about to remove to a house rented by the Visitors in the neighbourhood.

"We had the advantage of meeting the Committee at the Asylum this day, who informed us that the subject of enlargement was under their consideration. And it appears that a Special Committee has been appointed by the Quarter Sessions to consider the best mode of providing accommodation, who are shortly to confer with each of the Committees of Visitors of the three County Asylums as to the best mode of doing so.

"The Visitors are so well aware of the very unsatisfactory condition of pauper Lunatics in many of the Workhouses, that it is needless for us further to press the matter upon their attention.

"We have again to record our opinion that the Asylum continues to be in a very satisfactory state.

(Signed)

"W. G. CAMPBELL,

"JAMES WILKES,

"Commissioners in Lunacy."

The average weekly cost per patient during the year has been 7s. 6·37d.

I have the honour to remain, Gentlemen,

Your most obedient servant,

J. HOLLAND, F.R.C.S.,

Superintendent.

To the Committee of Visitors

of the County Lunatic Asylum,

Prestwich.
